**SUBJECT: NATIONAL ENVIRONMENTAL POLICY ACT COMPLIANCE PROGRAM**

---

1. **OBJECTIVE.** The purpose of this Order is to establish DOE internal requirements and responsibilities for implementing the National Environmental Policy Act of 1969 (NEPA), the Council on Environmental Quality Regulations Implementing the Procedural Provisions of NEPA (40 CFR Parts 1500-1508), and the DOE NEPA Implementing Procedures (10 CFR Part 1021). (Hereinafter, the latter two will be referred to as "the Regulations.") The goal of establishing the requirements and responsibilities presented here is to ensure efficient and effective implementation of DOE's NEPA responsibilities through teamwork. A key responsibility for all participants is to control the cost and time for the NEPA process while maintaining its quality.

2. **CANCELLATION.** DOE 451.1A, *National Environmental Policy Act Compliance Program*, dated 6-5-97.

3. **APPLICABILITY.** This Order applies to DOE Elements, including the National Nuclear Security Administration (NNSA). Although contractors may assist in the Department's NEPA implementation, the legal obligation to comply with NEPA belongs to DOE. In accordance with the responsibilities and authorities assigned by Executive Order 12344, codified at 50 USC sections 2406 and 2511, and to ensure consistency throughout the joint Navy/DOE Naval Nuclear Propulsion Program, the Deputy Administrator for Naval Reactors (Director) will implement and oversee requirements and practices pertaining to this Directive for activities under the Director's cognizance, as deemed appropriate. Section 5.a (10), (12), and (14), Section 5.b, and Section 5.f do not apply to NNSA activities, except as provided in Section 6. Section 6 applies only to NNSA activities.

4. **REQUIREMENTS.**

In addition to requirements established in NEPA and the Regulations, DOE's NEPA Compliance Program shall include:

- a. A system of DOE NEPA Compliance Officers.
- b. Internal scoping procedures for environmental assessments and environmental impact statements that include development of a schedule. For an environmental impact statement, the schedule, absent extraordinary circumstances, will provide for completion of a final environmental impact statement within 15 months of the issuance of the Notice of Intent.

- c. NEPA quality assurance plans and public participation plans.
- d. Annual NEPA planning summaries. An annual NEPA planning summary will describe briefly: (1) the status of ongoing NEPA compliance activities, (2) any environmental assessments expected to be prepared in the next 12 months, (3) any environmental impact statements expected to be prepared in the next 24 months, and (4) the planned cost and schedule for completion of each NEPA review identified. Every three years starting with 1995, the annual NEPA planning summary for each Field Organization will include an evaluation of whether a site-wide environmental impact statement would facilitate future NEPA compliance efforts.
- e. A DOE NEPA Document Manager for each environmental impact statement and environmental assessment.
- f. A system for reporting lessons learned and encouraging continuous improvement.
- g. Tracking and annually reporting progress in implementing a commitment for environmental impact mitigation that is essential to render the impacts of a proposed action not significant, or that is made in a record of decision.
- h. Opportunity, whenever possible, for interested parties to review an environmental assessment (concurrent with host state/tribal review under 10 CFR 1021.301) prior to DOE approval.

5. RESPONSIBILITIES.

- a. Each Secretarial Officer and Head of a Field Organization shall, for matters under the office's purview:
  - (1) Establish a NEPA compliance program and use the NEPA process early in project and program planning to consider environmental factors along with other relevant information.
  - (2) Maintain a DOE NEPA Compliance Officer for the office and designate a DOE NEPA Document Manager at the start of each environmental assessment and environmental impact statement.
  - (3) Ensure that internal scoping procedures, a quality assurance plan and a public participation plan are prepared for the office.
  - (4) Include in new contracts and grants a provision that the awardee may not undertake on DOE's behalf an action that is subject to NEPA until DOE has notified the awardee that DOE has satisfied applicable NEPA requirements.
  - (5) Incorporate NEPA milestones in project planning documents.

- (6) Incorporate NEPA compliance status information in internal budget review documents.
- (7) Submit an annual NEPA planning summary to the General Counsel by January 31 of each year and make it available to the public.
- (8) Determine that an environmental assessment or an environmental impact statement is appropriate or required.
- (9) After an environmental assessment determination, prepare and issue an environmental assessment. Responsibilities for approving and adopting environmental assessments and issuing findings of no significant impact may not be delegated except as provided in this Order. In addition to meeting requirements established in the Regulations, responsibilities include:
  - (a) When another agency is involved in preparation, determining whether DOE shall be a lead or cooperating agency.
  - (b) Obtaining concurrence of DOE counsel in the legal adequacy of an environmental assessment before it is approved and in any finding of no significant impact before it is issued.
  - (c) Determining, based on an environmental assessment, that the impacts of a proposed action are significant and that an environmental impact statement is required, or issuing a finding of no significant impact when appropriate.
  - (d) Adopting another agency's environmental assessment.
  - (e) When a commitment to mitigation is essential to render the impacts of a proposed action not significant, preparing a mitigation action plan for any such commitment before issuing the finding of no significant impact.
  - (f) Tracking and annually reporting progress made in implementing, and the effectiveness of, any commitment for environmental impact mitigation that is essential to render the impacts of a proposed action not significant.
- (10) Request from the General Counsel delegation of approval or adoption authority for a specific environmental impact statement when appropriate to expedite the review and approval process.
- (11) When required by the Regulations, prepare a supplement analysis and with the concurrence of DOE counsel, determine whether a supplemental or a new environmental impact statement is required for a proposed action, or whether no further documentation is required.

- (12) Determine that a proposed action that may be an interim action is clearly allowable under the Regulations. For a proposed action that may be an interim action not clearly allowable under the Regulations, provide the General Counsel with a recommendation for a determination whether the proposed action may proceed.
  - (13) Incorporate NEPA values, such as analysis of cumulative, off-site, ecological, and socioeconomic impacts, to the extent practicable, in DOE documents prepared under the Comprehensive Environmental Response, Compensation, and Liability Act.
  - (14) When appropriate, request from the General Counsel a variance from the DOE NEPA Regulations or from this Order.
- b. In addition to provisions in paragraph 5.a above, for a proposed action under the office's purview, after an environmental impact statement determination, each Secretarial Officer shall prepare an environmental impact statement and forward it to the General Counsel for approval. Responsibilities for issuing records of decision may not be delegated except as provided in this Order. In addition to meeting requirements established in the Regulations, responsibilities include:
- (1) Submitting a notice of intent to prepare an environmental impact statement to the General Counsel for issuance.
  - (2) [Removed and reserved]
  - (3) Issuing a record of decision for an environmental impact statement, after obtaining the concurrence of the General Counsel in its environmental content and legal adequacy.
  - (4) Preparing any mitigation action plan required under the DOE Regulations before taking an action that is the subject of a mitigation commitment made in a record of decision.
  - (5) Tracking and annually reporting progress made in implementing, and the effectiveness of, any mitigation commitment made in a record of decision.
- c. A Head of a Field Organization may delegate environmental assessment responsibilities to a Head of a subsidiary Field Organization (Area or Project Office) after confirming that the subsidiary organization has prepared adequate internal scoping procedures, a quality assurance plan and a public participation plan; has designated a NEPA Compliance Officer; and has adequate DOE legal resources available. (By such delegation, the authority to make categorical exclusion determinations would transfer to the NEPA Compliance Officer of the subsidiary Field Organization.) A Head of a subsidiary Field Organization may not redelegate responsibilities for approving and adopting environmental

assessments and issuing findings of no significant impact except as provided in this Order.

d. A NEPA Compliance Officer shall:

- (1) Develop office NEPA procedures and information management requirements, and document the office's compliance with those procedures and requirements.
- (2) For actions specifically listed in Appendix A or B to Subpart D of the DOE Regulations, make categorical exclusion determinations and approve and issue any required associated floodplain and wetland documents. These responsibilities may not be delegated except as provided in this Order. Categorical exclusion determinations for actions listed in Appendix B shall be documented and made available to the public by posting online, generally within two weeks of the determination, unless additional time is needed in order to review and protect classified information, "confidential business information" (such as information protected by the Trade Secrets Act or which is otherwise privileged commercial or financial information), or other information that DOE would not disclose pursuant to the Freedom of Information Act (FOIA) (5 U.S.C. Section 552). Posted categorical exclusion determinations shall not disclose classified information, "confidential business information," or other information that DOE would not disclose pursuant to FOIA.
- (3) For an environmental assessment, when an Office makes a draft environmental assessment available for public review, in addition to its usual method of doing so, ensure that the draft is posted on the Department's NEPA website before the start of the public review period.
- (4) Report to the Office of NEPA Policy and Compliance on lessons learned after completing each environmental impact statement and environmental assessment.
- (5) Coordinate NEPA compliance strategies for matters within the office's purview.
- (6) Advise on NEPA-related matters, including the provisions of the Regulations, the DOE NEPA Compliance Guide, this Order, and any other related requirements and guidance.
- (7) Recommend to the Head of the Office served (i.e., Secretarial Officer, Head of a Field Organization, or Head of a subsidiary Field Organization), whether an environmental assessment or environmental impact statement is appropriate or required.
- (8) Assist with the NEPA process and document preparation.

- (9) Advise on the adequacy of NEPA documents and other related documents.
  - (10) Participate in periodic NEPA meetings and workshops conducted by the Office of NEPA Policy and Compliance; provide NEPA training and disseminate NEPA guidance materials and related information.

    - (g) An environmental impact statement supplement analysis and any determination based on it.
- e. A NEPA Document Manager shall, for the environmental impact statement or environmental assessment being prepared:

  - (5) Encourage and facilitate public participation through the NEPA process.
  - (6) [Removed and reserved]
  - (7) Evaluate, upon completion of the environmental impact statement or environmental assessment, any support contractor's performance for timeliness, quality, cost-effectiveness, responsiveness, and application of requirements and guidance.
