MEMORANDUM FOR INGRID KOLB  
DIRECTOR  
OFFICE OF MANAGEMENT

THROUGH: KEVIN T. HAGERTY  
DIRECTOR  
OFFICE OF INFORMATION RESOURCES

FROM: MICHAEL W. LOCATIS  
CHIEF INFORMATION OFFICER

SUBJECT: Notice of Intent to Revise DOE O 200.1A, *Information Technology Management*

**PURPOSE:** DOE Order 200.1A, *Information Technology Management*, sets forth requirements and responsibilities for life-cycle management of information technology (IT) from acquisition through re-use or disposition. It ensures the appropriate governance and oversight of IT assets throughout the Department, and supports requirements from the Clinger-Cohen Act; the E-Government Act; the Government Performance and Results Act; and the Government Paperwork Elimination Act.

**JUSTIFICATION:** Although DOE O 200.1A was revised in December 2008, there have been significant changes in IT governance processes and Departmental use of new technologies such as Web 2.0 technologies since that time. Revision of this Order to address these changes will ensure consistent and effective management of DOE's valuable IT assets. It will also enable DOE to maintain policy alignment with recent Administration direction such as the "Cloud First" policy and the 25 Point Plan for Federal IT Reform.

The Office of the CIO will circulate the draft revision widely throughout the DOE IT community for review and comment to ensure that existing IT governance groups support the proposed revision and that there is general agreement across the Department on the proposed changes.

**IMPACT:** This revision will not impose any new requirements to DOE Elements or its contractors. The proposed directive does not duplicate existing laws, regulations or national standards and it does not create undue burden on the Department. No additional requirements are anticipated.

**WRITER:** TheAnne Gordon, (202) 586-3705
