Washington, DC 20585

November 15, 2012

MEMORANDUM FOR KEVIN T. HAGERTY

DIRECTOR

OFFICE OF INFORMATION RESOURCES

FROM:

LARRY D. WILCHER

DIRECTOR

OFFICE OF SECURITY

OFFICE OF HEALTH, SAFETY AND SECURITY

SUBJECT:

Request to Make Administrative Changes to Department of Energy
Order 474.2, *Nuclear Material Control and Accountability*

PURPOSE: Request approval of administrative changes to subject order. These changes are intended to correct typographical and pagination errors, delete a canceled reference and clarify the intent of four metrics in attachment 3.

JUSTIFICATION: It has been brought to our attention by the field sites through implementation processes that the intent of some of the metrics are unclear. It was also found that the footnote on the graded safeguards table has a minus instead of a plus sign and the pagination should be page three, not two.
